SITUATION SUMMARY

Proclamations

Los Angeles County (City of Avalon and Santa Catalina Island) Hurricane Marie Damages (New)

On 09/04/14, the County of Los Angeles submitted a proclamation of a local emergency due to the ocean surge and high tides caused by Hurricane Marie that began on August 26, 2014. Los Angeles County is requesting that the Director of the Governor's Office of Emergency Services concur and request that the Governor of the State of California proclaim a State of Emergency in the City of Avalon and Santa Catalina Island with a request for any and all assistance including California Disaster Assistance Act (CDAA)

Hurricane Norbert: Ventura, Los Angeles, Orange, and San Diego Counties

- Hurricane Norbert continues to slowly move north-northwestward, west of the Baja Peninsula. Norbert, is currently forecast to weaken to a Tropical Depression by early Monday morning as it moves over cooler waters and into drier air. An area of high pressure to the east will continue to help to pull moisture from Norbert northward into the area, yielding chances for showers and thunderstorms through at least Tuesday. A gradual drying trend is expected to occur from west to east through the latter part of next week.
- Norbert will continue to move northwest off the coast of Baja California through this weekend. This will bring a large increase of moisture over southern California by Sunday. Thunderstorms will be possible beginning early Sunday and will continue through Tuesday. The best chance of thunderstorms will be in the mountains, but there is a slight chance some thunderstorms could occur near the coast and over the coastal waters. Heavy rain will be possible with some thunderstorms, especially in the mountains and deserts, and local flash flooding will be possible. There is also a chance of high surf at the coast on south-facing beaches mainly around Monday.

SITUATION SUMMARY

Governor Brown Requests Presidential Major Disaster Declaration, Offers Additional South Napa Earthquake Recovery Assistance

Moving to help communities recover from the South Napa Earthquake, Governor Edmund G. Brown Jr. has requested a Presidential Major Disaster Declaration for the state and issued an Executive Order to help cut red tape and provide additional financial assistance.

A Presidential Major Disaster Declaration triggers the release of Federal funds to help communities recover and the Executive Order provides additional financial assistance to local agencies and non-profit organizations and ensures residents can replace important documents and access key services without shouldering additional costs or other burdens.

Magnitude 6.0 Earthquake, American Canyon, Napa County

SITUATION:

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA. The earthquake nucleated at a depth of 10.8km. The shaking intensity in American Canyon and Napa from the “South Napa Earthquake” was a “VII” on the Modified Mercalli Scale, suggesting very strong shaking occurred in the Napa County area. Ground shaking was felt as far south as Salinas, east to Sacramento, and north to Ukiah. The Cal OES Earthquake and Tsunami Duty Officer is in contact with the United States Geological Survey and California Geological Survey and will provide updates.

South Napa Earthquake Recovery VIP Tour

- A tour of South Napa was held 9/3/14, and was hosted by the City and County of Napa.

Access and Functional Needs

- Solano County established a casework hotline at (707-438-7059) from 1000 – 1700 hours.
- Napa County established a casework hotline at (707-257-2900) from 1000 – 1700 hours.

SITUATION SUMMARY

Evacuations/Shelters

- American Red Cross shelter: Crosswalk Community Church, located at 2590 First Street, Napa, CA: Population: 22
- Pets can be sheltered at the Napa County Animal Shelter on Hartle Court, Napa, CA.
- American Red Cross shelter: Florence Douglas Senior Center, located at 333 Amador Street, Vallejo, CA: Population: 3

Health and Medical

- St. Helena Hospital turbidity of sources was investigated and found to be minimal. The main turbidity problems are associated with their storage tanks. Contacts have been provided to the water system for tank cleaners. Additional bacteriological samples were collected by staff. There are no notices in place at this time; however, the situation continues to be monitored.
- The Office of Statewide Health Planning and Development (OSHPD) completed inspection of buildings at Napa State Hospital and the Sonoma Developmental Center.
- Per the Department of Social Services, the following CCL Adult and Senior Care Facilities are impacted:
 - Nazareth Rose Garden of Napa, 903 Saratoga Drive, Napa. Closed due to water damage, 38 residents moved.
 - Napa Valley Support Services - Brown Street, 2225 Brown Street, Ste. 102, Napa. The facility closed with ceiling damage.
 - Napa Valley Support Services – Napa, 622 Imperial Way, Napa. The facility closed with ceiling damage.

The following hospitals/clinics are closed:

- Community Health Clinic (aka: Clinic Ole), 1100 Trancas Street, Napa: Will be closed for two to four weeks due to water damage from a coil in the hot water heater going out during the earthquake. The damage is in two exam rooms and some offices. All patients with existing appointments have been given appointments at affiliate clinics. They have postings on the outside of clinic, website, and social media on where patients can access care if needed.

Health and Medical Cont.

CDPH Women, Infants and Children (WIC) reported (5) centers (1 in Solano; 4 in Napa County) are closed and will reopen on 9/8/14.

- Department of State Hospitals: Staff relocations to safe structures continue. Structural engineers continue to evaluate identified yellow and red tag structures. Aside from diligent monitoring, hospital life/safety/health issues and patient treatment areas are back to standard operations.
- The Department of Child Support Services: Napa County Child Support Agency is again providing services to child support customers. Napa County Public Health (NCPH) will be submitting a formal request to the Napa MHOAC regarding a request for assistance from the DEODC Emergency Preparedness Team. NCPH is requesting a community assessment of emergency preparedness, mental health issues, chronic disease exacerbation, and injuries following the earthquake. The assessment is planned for the week of 9/15/14.
- The CDPH and EMSA Duty Officer programs continue to monitor and update the impact of the incident.
- CDPH Division of Licensing and Certification (L&C) continues to monitor the situation and provide updates on the status of affected licensed facilities.
- CDPH Division of Environmental and Occupational Disease Control (DEODC) Emergency Preparedness (EP) will be assisting Napa County Public Health with an assessment planned for the week of 9/15/14 regarding epidemiological assessment of injuries, chronic disease exacerbation, mental health needs, and personal preparedness related to the earthquake.
- The CDPH Center for Health Statistics and Informatics (CHSI), Vital Records Registration Branch (VRRB) has been in contact with the Napa County Recorder's office and has not received requests for assistance but is monitoring the situation.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Power and Utilities

Per CUEA:

- All communications functioning in normal range, AT&T has a COLT (cell on light truck) and mobile charging trailer on site in downtown Napa.
- PG&E strike teams deployed to provide welfare checks to the community for isolated power outages for Napa and damaged areas.

Water

- There is still a boil water order for any area with a loss of pressure.
- Water stations remain open through most of the week; notice will be provided prior to closing these facilities:
 - Las Flores Center on Linda Vista Avenue and Pearl Street (1 block west of Main
- St. Helena Hospital (System No. 2800625): St. Helena Hospital (SHH) reported no total coliform and E. coli. A precautionary boil water notice for 5 residences in the SHH public water system was issued due to a water main leak from an aftershock on 9/1 which required depressurization for repairs. This does NOT impact hospital facilities. The residences affected are 37, 39, 42, 44, and 46 Hillcrest Rd. The leak was repaired and pressure restored, with bacteriological testing commencing 9/2/14 due to laboratory availability. The turbidity of sources was investigated on 8/29/14 and found to be minimal. The turbidity problems associated with the storage tanks are being addressed by tank cleaners 09/03/14. New damage (9/1) to waterline will need to replace 1,000 feet of pipe. Will need temporary storage tank during replacement.
- City of Napa (System No. 2810003): The City of Napa repaired 8 small leaks on 9/2/14.
- The City of Napa uses several large tanks as part of their water delivery system. One is a (1) million gallon “B Tank” which suffered extensive damage and is located on Montana Drive in Browns Valley. This tank is off line causing water pressure to fluctuate for approximately 1,800 customers in the Browns Valley and Congress Valley areas. The affected area is generally west of Westview Drive, south of Redwood Road (including Lynn Drive) and north of Old Sonoma Road. During periods of high water use, lower pressures may be most noticeable for those with homes at higher elevations. This is because water pressure is normally created by gravity flow from the hillside tank, but currently is being created by pumped systems that are not designed for this sole purpose. Water Division managers are adjusting pressure in the system to provide a temporary solution to this problem, but the City is looking for residents in this affected area to help with the solution by adjusting irrigation systems and reducing water use during high demand hours. It may take up to six months to repair or replace the “B Tank.”
- FEMA staff is reviewing damage. Damage also being reviewed at raw water pipeline where slides have occurred.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Warm and dry conditions will persist through mid-next week in the interior. Clouds and fog will return to all coastal areas by this afternoon and continue into the weekend.

San Francisco Weather:

Typical late summer weather conditions and near normal temperatures will prevail through early next week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Dry weather continuing into next week with a little above normal temperatures.

Hanford Weather:

Little change weather-wise expected over Central California today and Saturday as weak high pressure dominates. Moisture from the remnants of Hurricane Norbert will move northward across Kern County and the southern Sierra Sunday and Monday for a threat of thunderstorms.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA

Los Angeles Weather:

A warming trend and a decrease in night through morning marine layer cloud coverage is expected through Saturday as high pressure builds. Moisture from the remnants of hurricane moisture will bring an increase in clouds Sunday into Monday. There is a slight chance of showers and thunderstorms mainly in the eastern mountains and Antelope Valley. An upper trough moving into the West Coast will force subtropical moisture to the east by Tuesday with generally seasonable weather Tuesday through Thursday.

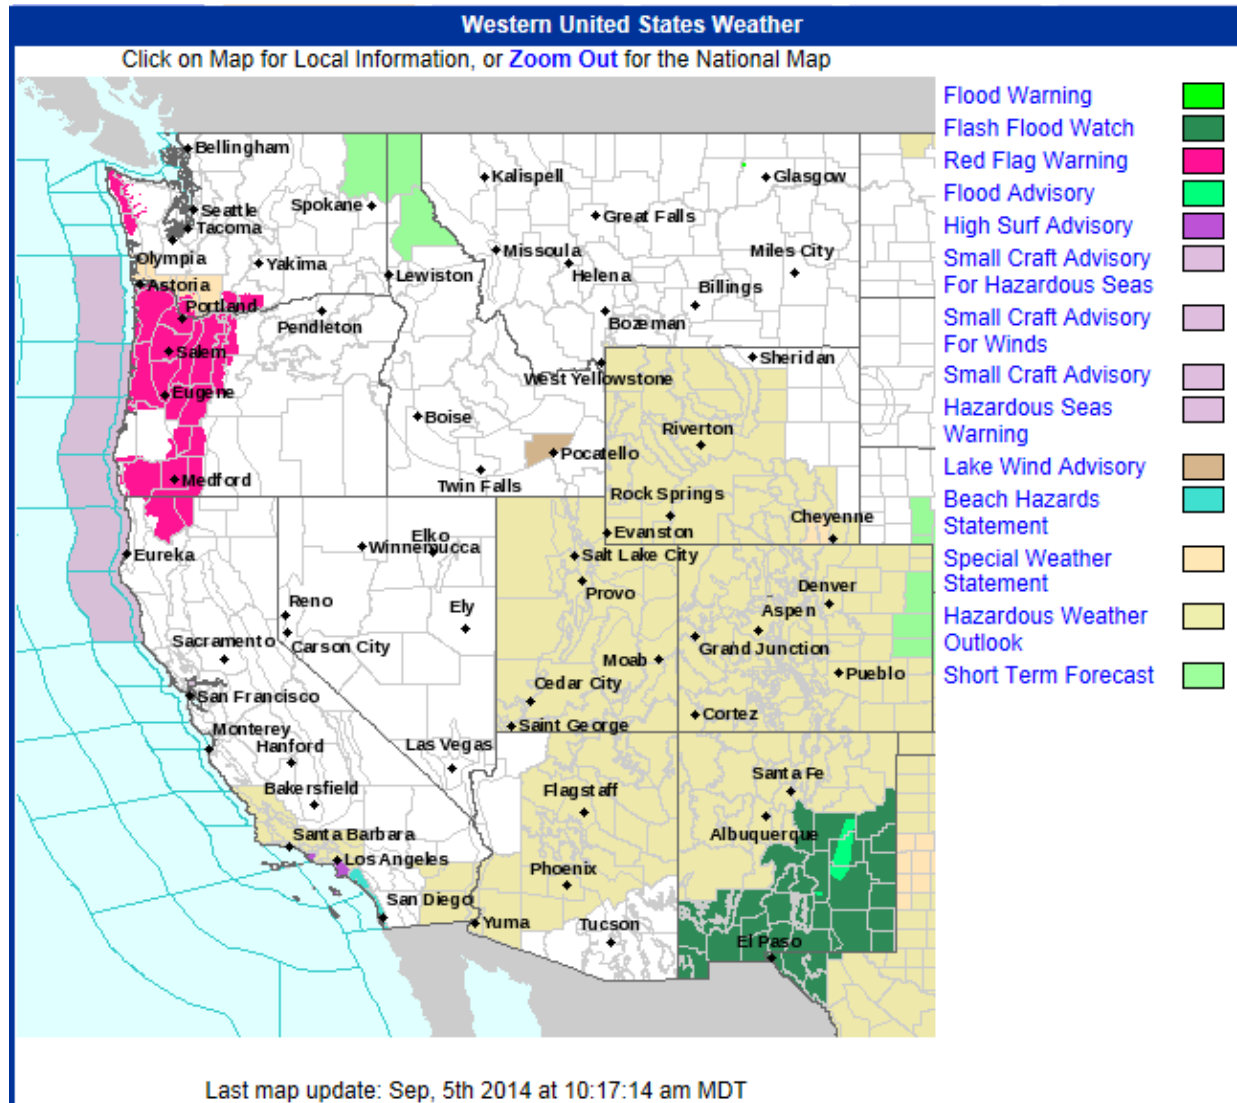

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Increasing lower level moisture in the lower deserts will bring a slight chance of thunderstorms to the mountains and lower deserts this afternoon and early evening and a little greater chance for Saturday afternoon and evening. Moisture from the remnants of Hurricane Norbert will bring greater chances for showers and thunderstorms for Sunday and Monday, decreasing Tuesday. Dry with seasonal temperatures for Wednesday and Thursday.

Southeast California Weather:

Isolated shower and thunderstorm chances spread into portions of eastern San Bernardino County for Saturday as moisture increases. Otherwise the rest of the area should see dry conditions under southwest flow. Moisture is forecast to increase even more Sunday into Monday resulting in a better chance of showers and thunderstorms.
